Transformer Oil Sampling

Training Overview

Through the training attendees are given with a task to perform a preventive maintenance procedure – transformer oil sampling. Participants are invited to collect the necessary tools and step-by-step carry out the sampling procedure for transformer oil of voltage class 110 kV.

Training Key Features And Main Takeaways

Visual And Audio Guidance

Average Time To Complete 10 min

User Friendly Experience For First-Time Users

What Skill Do You Acquire After Completing

After successful completion attendees will be able to know what tools are required to perform transformer oil sampling, how to set up a workspace, be aware of all safety considerations and requirements to be observed before and during sampling, connect fittings with an appropriate sized nipple to the sample point on the transformer, an appropriate amount of oil while cleaning the botte and collecting the final sample.

VR Benefits Over Traditional Education

Employees who would otherwise be subject to training in harsh, high-risk circumstances can learn and make decisions in a physically-safe environment through VR. The safety factor alone can be enough to justify investment in VR due to the cost of accidents both in training and on the job. Heavy equipment doesn't have to be brought to a special training location, or suffer wear and tear as numerous trainees learn how to operate it.

On Average, Early Achievers Derive Higher Benefits As Compared To The Rest

26 %

More Profitable

According To The Study, Those Enterprises That Use AR / VR Technology Are On Average 26% More Profitable Than Their Competitors.

Controls And Interactions Guide

Interacting With Objects

Use the trigger button ⑤ to interact with objects. In a case of taking and carrying items press the trigger ones and release it, the item will be automatically attached to your hand.

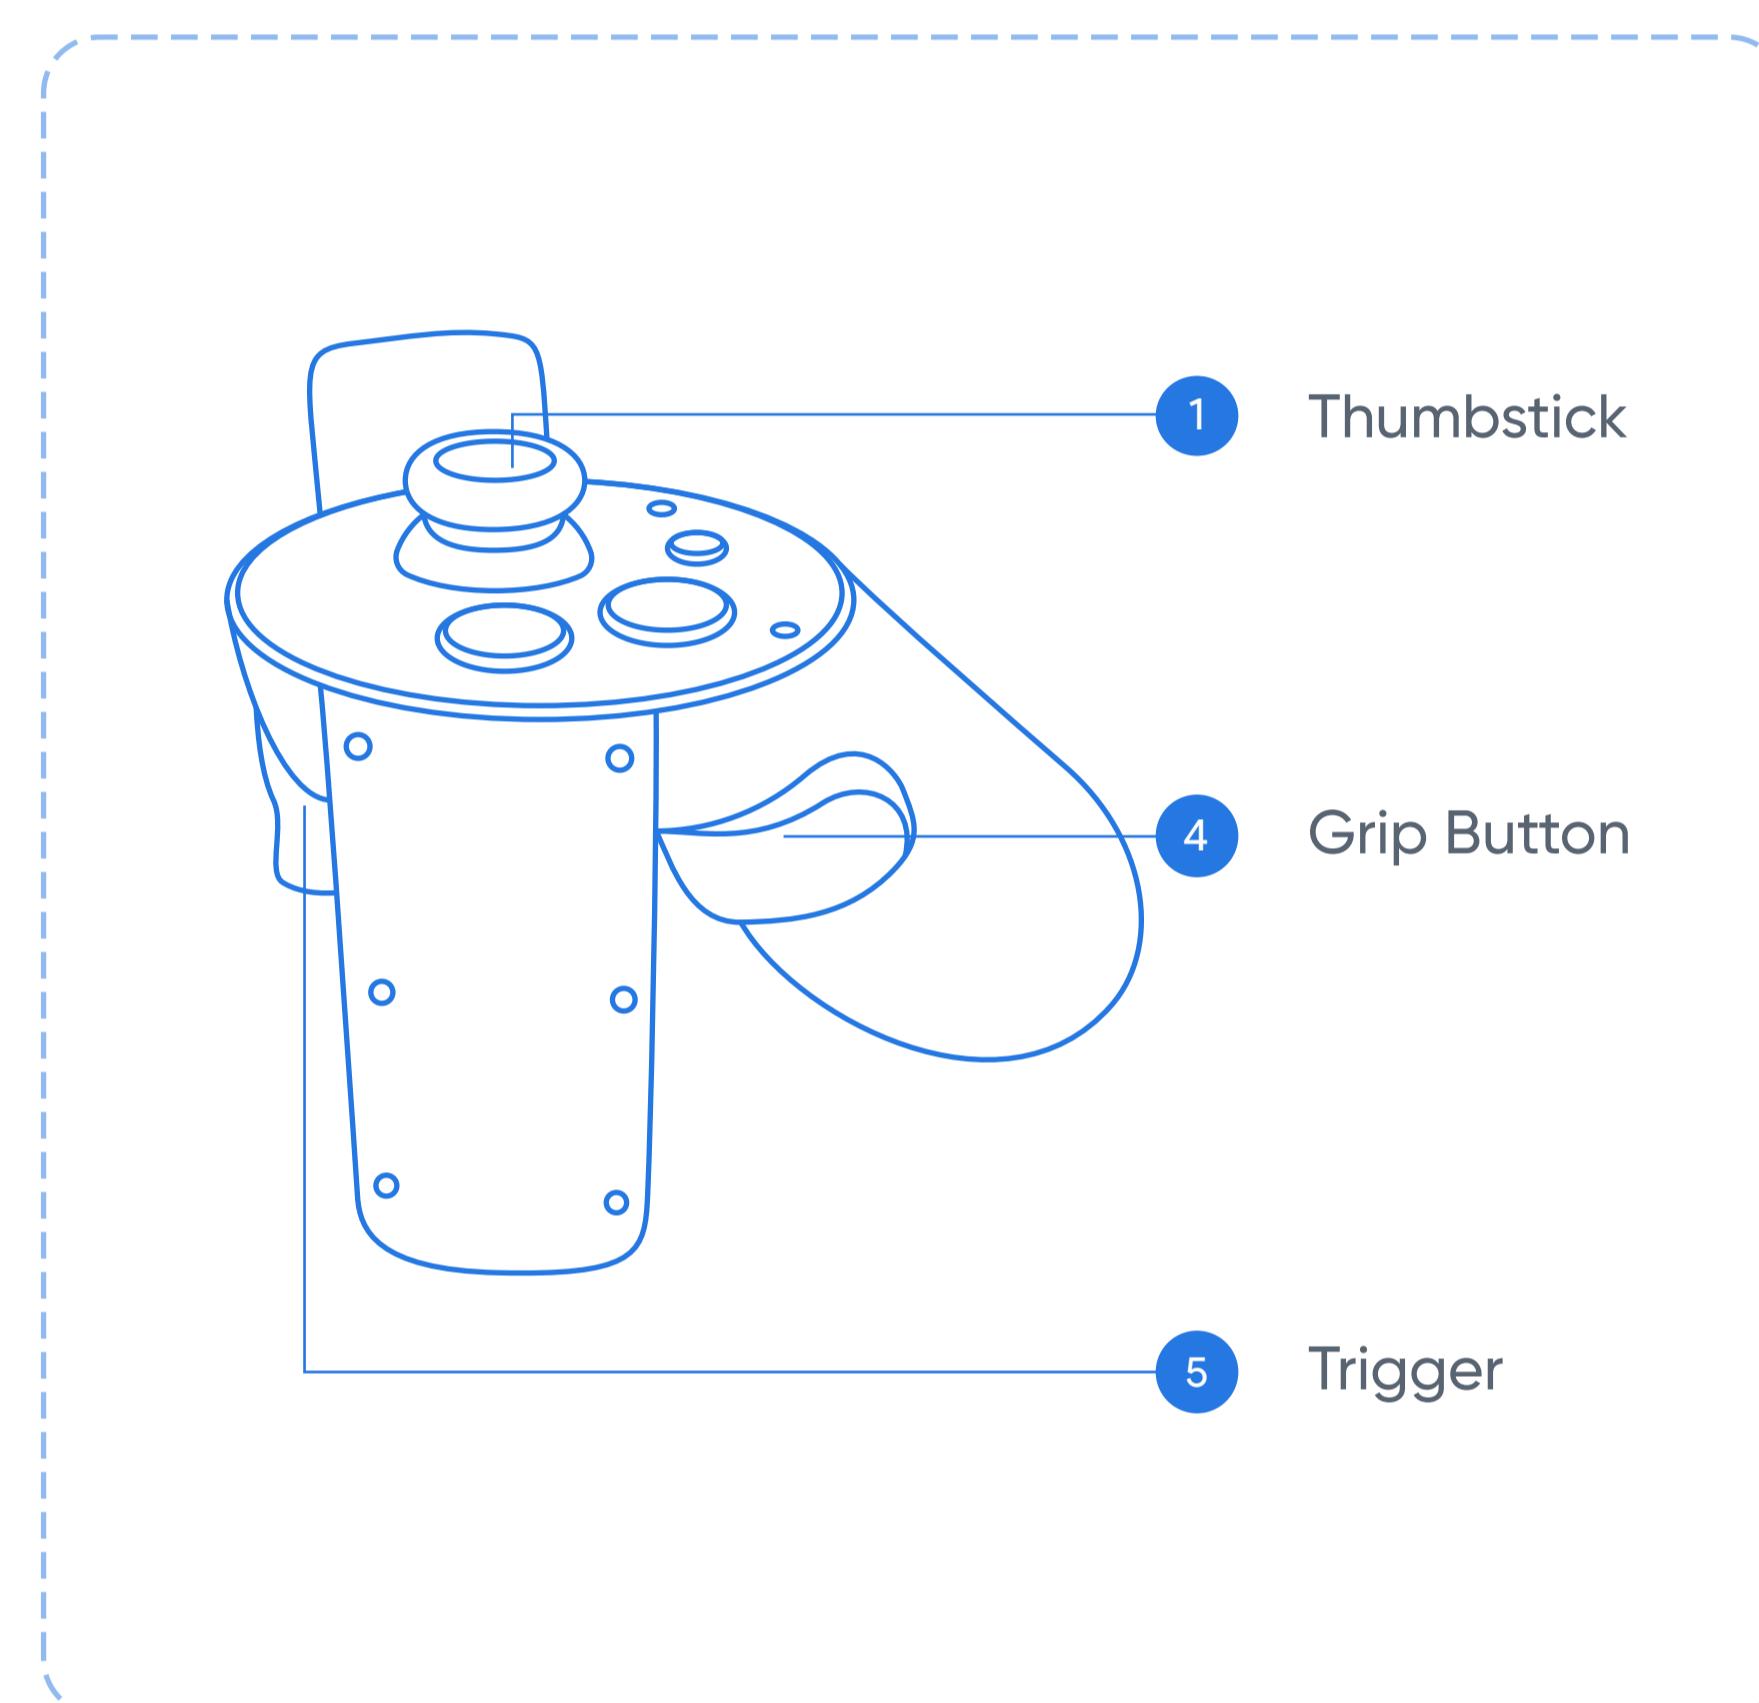

Teleporting

Push the thumbstick ① forward and aim the beam at the objective marker. Once the teleport location changes its color from red to blue – release the thumbstick to teleport.

Oculus Quest

Oculus Rift

HTC Vive

VR Session Space Requirements

Prior to any VR session to be held, please, make sure that you have until 6 sqm / 65 sqft free space available with no obstacles around you. When setting up your Guardian boundary, leave extra space against walls and around objects. Keep in mind that Guardian will not be able to detect people or pets that enter your play area, so choose a play area that you can keep clear even when your headset is on.
